

## **B Block Refurbishment, Treforest Campus.**

External and Internal refurbishment works to B Block at Treforest Campus including the following:

- Demolish and clear the existing single-storey building (there is a small workshop section which is of extended height), including foundations and slabs etc. to suit. Drains under or close to the footprint of the buildings have been grubbed up and capped off.
- Re-roofing
- Parextherm external rendering
- Replacement of windows and doors.

Internal refurbishment works including the following:

- Replacement flooring
- New partitions including glazed screens and new doors
- Ceiling replacement and alterations
- Alterations to M&E services, Computer networks and Fire detection system.
- Removal of fixed furniture and replace with loose furniture
- Replacement blinds
- Decoration throughout

All works were carried out whilst the University remained fully operational.
